PROJECTS

• SNEAKERHEAD (ONGOING) JULY 2024

Sneaker Head currently includes HTML, CSS, and ReactJS functionalities, focusing primarily on front-end skills. Moving forward, we plan to enhance the platform by incorporating back-end skills as well.

• Sahand Estate Website January 2024

Sahand Estate is a modern real estate website built with the MERN stack (MongoDB, Express.js, React, Node.js). It offers advanced property search and secure user authentication in a responsive design for all devices.

• Safar- Tour and Travel Website July 2023

Safar is a dynamic travel website crafted with HTML, CSS, and JavaScript, offering seamless navigation and user-friendly features for travelers to explore destinations, book activities, accommodations, and plan memorable journeys.
